**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

jcartee@kmob.com  
eOAPilot@kmob.com

**ADVISORY ACTION (continuation of page 1)**

The request for reconsideration has been considered but does not place the application in condition for allowance because of the follow reasons:

Amendments to the claims and replacement drawings will be entered because they correct the 35 USC § 112 and drawing objection issues presented by the examiner in the final rejection dated 08/21/08 and the claim amendments align with examiner's interpretations of the claims used during prosecution.

1. Applicant argues that the Zambrano does not teach an electrical connection between a metal source contact and a further metal strip comprises a capacitor. Applicant's argument is not persuasive because Zambrano teaches a capacitor (5) between a metal source contact (16) and a further metal strip (28) (Fig. 1 Col. 3 lines 38-41).
2. Applicant further states that their specification describes that the addition of the capacitor to the further metal strip has provided unexpected results as shown in figures 6-8 and paragraphs 0029-0033). Examiner reviewed the specification and found that it does not attribute unexpected results to the addition of the capacitor to the further metal strips, but does discuss how it has improved and optimized the device for operation at higher power levels. The specification also does not contain paragraph numbers and it would be helpful to provide page and line numbers to point out where the unexpected results are discussed.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SARAH K. SALERNO whose telephone number is (571)270-1266. The examiner can normally be reached on M-F 8:00-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (571) 272-1705. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
